what is appearance protect?

To help protect your vehicle's factory applied paint and clear coat, simply add Appearance Protect. We'll apply a chemical to the exterior of your vehicle that creates a transparent layer of polymeric coating for additional protection and keeping out the elements. Plus, it produces a deep glossy shine, which aids in keeping your vehicle looking new.

The interior of your vehicle can also be protected with a blend of polymer fluids that have special dual band, broad spectrum UVA & UVB ray inhibitors, leaving lasting protection. Additionally, it provides a breathable layer of polymer protection that helps protect individual fabric fibers and forms a barrier against spills.
